

LIGHTWEIGHT STRIKER

Automated Shotgun Cleaning System

48 in. W x 44 in. L
1220 mm W x 1118 mm L

The Lightweight Striker SKRL-100 is designed for automated shotgunning in hard to access locations. The system can be quickly disassembled into modular components that fit through standard manway openings and meet plant requirements for single man lift.

Contractors can use the Lightweight Striker for hands free surface prep on elevated platforms, inside of tanks, and other limited access locations that previously required manual cleaning. Custom engineered nozzles generate maximum cleaning thrust and ensure safe operation.

COMPETITIVE ADVANTAGES

- Smaller, more portable, and easier to carry, the Lightweight Striker is the only product on the market that is truly “one man portable” for in place cleaning and difficult to access applications
- System can be fully assembled in less than 5 minutes with minimal hand tools
- Ability to fine tune the speed and resistance of the “wrist” motion to maximize productivity
- Least expensive automated remote shotgun tool on the market
