

LIGHTWEIGHT POSITIONER

INDEXING SYSTEM

The Lightweight Positioner is an indexing system that can be paired with a variety of StoneAge equipment for applications where controlled and repeatable movement is required.

This system is engineered for use with AutoBox tractors for safe and efficient cleaning of exchanger tubes. It can also be paired with shotgun tools for tube sheet cleaning and surface preparation.

- Modular and expandable
- Quick set-up
- Durable stainless steel air motors
- Conversion Available  **Sentinel**
AUTOMATION TECHNOLOGY BY StoneAge

OPTIONAL ACCESSORIES

Includes a shotgun mount for surface prep and tube sheet cleaning

MULTIPLE MOUNTING OPTIONS

Allows the LWPS to be configured to several different heat exchanger faces.
