

# SWITCHER™

“For me, it’s the versatility. It has the ability to cut roots in cleaning mode without blowing up the houses. It’s also very important that it climbs hills very effectively – which it does. It’s revolutionary. There is no other product in the market today that will switch like that.”

**OPERATOR CAN REMOTELY SWITCH BETWEEN PULLING AND CLEANING WITH THE NOZZLE IN THE PIPE.**

Use full pulling thrust to climb inclines and go upstream to problem area.

Idle the pump down to “switch” jets to cleaning mode.

Bring the pump back to pressure to begin cleaning/cutting mode.
