## NEW FOR 2017

## LIGHTWEIGHT STRIKER™

The Lightweight Striker is designed for automated shotgunning in hard to access locations. The system can be quickly disassembled into modular components that fit through standard manway openings and meet plant requirements for single man lift.

Contractors can use the Lightweight Striker for hands free surface prep on elevated platforms, inside of tanks, and other limited access locations that previously required manual cleaning. Custom engineered nozzles generate maximum cleaning thrust and ensure safe operation.

### FEATURES:

- Modular system designed for portability
- Can be fully assembled in less than 5 minutes
- Fits through 21 in. (534 mm) manway
- Custom 10K and 20K nozzles – engineered to ensure safe operation while delivering maximum thrust
- Affordable alternative to complicated robotic systems
- CE Certified
