PIPE CLEANING

INSIDE DIAMETER PIPE CLEANER

The StoneAge I.D. Pipe Cleaner is an automated rigid lance system designed to clean the interior surface of drill pipes used in the oil and gas industry. The I.D. Pipe Cleaner can run pressures up to 40K psi (2800 bar) and has adjustable rotation and stroke controls to optimize blast settings for any deposit including cement, drill mud, paraffin, and NORM. This system is also ideal for use in the descaling or pickling process used in many steel foundries.

FEATURES:

- Affordable modular design is configurable to clean pipes up to 55 ft (16.7 m) in length
- Can be adapted to a variety of pressures and flows up to 60 gpm (227 l/min) and 40k psi (2800 bar) for the highest level of cleaning efficiency
- Rigid rotating lance allows all power or flow to be concentrated for cleaning rather than pulling or rotation
- Independently adjustable rotation and feed controls can be set for optimal dwell to match any type of deposit
- Heavy-duty carriage assembly adapts to large diameter lances
- Rugged pipe vice attachment helps stabilize pipe movement
- Automated operation delivers consistent and repeatable results when cleaning thousands of linear feet of pipe
- Complete package includes adjustable jack stands, control box, rigid lance, and cleaning heads
