

## NEW UPDATES FOR 2017

## HOSE CONTAINMENT SYSTEM

The Hose Containment System is a modular accessory for the Autobox ABX-2L and ABX-3L which contains and securely stores hoses typically used for heat exchanger tube cleaning.

The HCS is a simple system to setup and operate, and greatly increases job site safety by eliminating the potential for high pressure hoses to snag on structure, valves, or other objects. It also increases hose life by reducing wear and makes it easy to store and transport hoses between jobs.

## **FEATURES:**

- Reliable hose containment and storage for increased job site safety
- Easily store and transport hoses between jobs
- · Portable design with small footprint
- Reduces hose wear
- Lightweight and durable with good corrosion resistance

## **NEW HCS-3L HOSE CONTAINMENT**

Now compatible with AutoBox ABX-3L to hold up to 75 ft (23 m) of three 3/4–8/4 sized hoses
