WARTHOG SEWER NOZZLES BY **StoneAge**®

THE INDUSTRY'S MOST POWERFUL & DURABLE SEWER TOOLS

CONTENTS

CLASSIC

WARTHOG CLASSIC ROTARY SEWER CLEANING TOOLS are industry-proven for performance, durability, and ease of use. The Warthog is a truly powerful all-purpose tool for cutting roots, clearing grease, and removing hard mineral deposits. All tools in the Classic line are field-serviceable for high value and low cost of ownership. Puller models with extra thrust are available for climbing inclined laterals.

MAGNUM

WARTHOG MAGNUM SEWER TOOLS are built to withstand the consistent demands of large municipalities. Magnum series tools have long maintenance intervals and deliver consistent jet quality over time. Durable carbide nozzle inserts effectively handle recycled water and excess debris. These tools are completely serviceable and feature individually replaceable, hardened steel centralizer fins to protect the tool body. Switcher models are available to convert from pulling to descaling on the fly.
